International Journal of E-Planning Research (IJEPR)

Volume 10 (2021)

The **International Journal of E-Planning Research (IJEPR)** publishes original theoretical and innovative empirical research on the many aspects of the emerging interdisciplinary area of urban e-planning. The journal is mainly focused on urban e-planning theory, history, methods, ethics, best practices, urban e-planning pedagogy, future developments, and on the software technology associated with urban e-planning. Due to its comprehensive coverage, this international journal has been accepted into prestigious indices, most notably Web of Science® – Emerging Sources Citation Index®, Scopus®, Compendex®, INSPEC®, as well as has been selected in notable journal lists, including in the Class A scientific journals by the Italian National Agency for the Evaluation of Universities and Research Institutes (2018-2020), in the Excellence in Research for Australia list from the Australian Research Council (ERA 2018 Journal List - ERA Journal Id 210655). It is also included in the International Geographical Union (IGU) list of journals.

The mission of the **International Journal of E-Planning Research (IJEPR)** is to provide scholars, researchers, students, and urban and regional planning practitioners with analytical and theoretically-informed empirical research on e-planning, as well as evidence on best-practices of e-planning, in both urban and regional planning fields.
